### Other Required Hours

The **GENERAL EDUCATION (44 SHC)** core component, if completed successfully with a grade of "C" or better on each course, shall be portable and transferable as a block from Surry Community College to UNC institutions whether or not the student has earned the associate degree. Students who transfer the full general education core component shall be considered to have fulfilled the institution-wide, lower division requirements of the receiving institution. **However, graduates of the Associate in Arts or Science degree program (65 SHC) will be eligible to transfer to all constituent institutions of the University of North Carolina with junior status if admitted into the institution.**

### Minimum Course Requirements (MCR)

**All students who plan to enter a four-year university must have met the MCR requirements either in high school or at a community college. Generally, the continued study of language (beyond English) and a strong math curriculum in college are recommended.**

#### **Completion of MCR Requirements in High School**

You have already met the MCR requirements in high school if you completed ALL of the following requirements:

1. Completed 4 units of English
2. Completed Algebra I, Algebra II, and Geometry
3. Completed 3 units of science --- one life science, one physical science, and at least one laboratory science
4. Completed 2 units of social sciences --- one must have been US History
5. Completed 2 units of the same language other than English

If you **missed any one** of the high school MCR requirements, you must complete the MCR requirements at a community college. If you lack **one or more** of the above courses, you must use one of the three methods listed below to meet Minimum Course Requirements.

#### **Completion of MCR Requirements at a Community College**

There are three ways to complete the MCR requirements at a community college.

1. Complete 6 semester hours of college-level work in **EACH** of the following areas (total of 30-32 semester hours credit).
  - English (ENG 111 and either ENG 112 or ENG 113)
  - Math (two General Education math courses; must have MAT prefix)
  - Science (two General Education science courses)
  - Social Sciences (two General Education social sciences courses)
  - Language other than English (two semesters of the same language)
2. Complete the 44 semester hour General Education core of the Associate in Arts or the Associate in Science degrees as long as 6 of the Humanities/Fine Arts hours are in the same foreign language.
3. Complete the Associate in Arts or Associate in Science degrees. Two semesters of the same language other than English are required.

***Effective until Fall 2006. Beginning in the fall of 2006, students will have to have an additional math class that is more advanced than Algebra II.***

### **STRONGLY RECOMMENDED:**

1. Visit admissions offices of universities considered during first year.
2. Meet and work with SCC faculty advisor each semester.
3. Apply to universities in fall of sophomore year for admission following fall.
4. Regularly use the SCC Transfer web-site ([www.surry.edu/Transfer/default.htm](http://www.surry.edu/Transfer/default.htm)).
5. Apply for graduation in February.

### NOTES:

1. Students must meet the receiving institution's foreign language and/or health & physical education requirements, if applicable, prior to or after transfer.
2. 1 SHC of Cooperative Education (COE) may be included in the AS and AA as an elective.

In compliance with the Comprehensive Articulation Agreement, graduates of the Associate in Arts degree program as outlined here will be eligible to transfer to all constituent institutions of the University of North Carolina with junior status if admitted into the institution. To be considered for junior status, graduates must meet the same requirements set for native university students with respect to such things as grade point average and credit hours accumulated. Graduates will normally receive 64 SHC upon admission to a university. Admission to a university does not constitute admission to a particular school or a specific program within the university.

All courses listed on this sheet (except those identified with a +) will transfer to all UNC institutions. These and other courses offered at SCC may transfer to selected public and private colleges and universities. **See your SCC advisor and contact an advisor at the college you wish to attend for additional information.**
